Im down

I believe in what, you believe in me,  
One word can hurt sodeeply,  
My truth is your fantasy,  
Cause Im a Fallacy of the Free,

Fallacy of the Free, yah,  
Fallacy of the Free,

Im tired, so tired, (2 times)

Trying to find a way to face,  
The one thats staring back at me,  
Face the fear thats burned inside of me,  
Locked in chains, Im a fallacy,  
Im a fallacy of the free,  
Can you help me, when you see me pass?  
Can you lend a hand?  
Lend a hand

Where do I stand?  
Whats the plan?  
In this see of propaganda,  
Whats my part?  
Will I pass like a grain of sand?  
Ill give it all away for this sickness to end,  
Ill give it all away, for it to end,  
Sometimes I feel so broken,  
But Im trying to bendIm trying to bend!
