Troops are thrashing onwards
To rape all holy land
Seek victims as the sun descends
Damnation is at hand

The sound of killing
Threatens the weak
Slashed wrists greet us
Blasphemous fiends

Merciless
Merciless

We don't oppose evil
We are
We don't oppose evil
We are merciless

[Incomprehensible]
Merciless

Graced submissive rectified force
Raining daggers open death's doors

We don't oppose evil
We are
We don't oppose evil
We are [Incomprehensible]
