The waiting room, what a place for our first kiss
Isn't it weird that we have the same therapist
All my time with you was so precious
I know we'll probably wind up being Mr. and Mrs.
Because I wined and dined you at the Ritz, remember
that?
I drank so much I got the shits, remember that?
I got you that facial and then that massage, what about
that?
But you never would let me give you a colonic
Whatever

I'm not stalking you
I'm just calling a lot
I'm not trying to upset you
I'm not
Who's this Kevin guy
I think I should know
I didn't give up three weeks of my life
Just to let you go

Oh no, I don't give up that easy
C'mon I think we can work it out, sweetie

For nineteen days we were in love you fucking bitch!
Oh my god, what did I just say?
I didn't mean it
But you took the dog and all the booze
And I got jack
And all those Betsy Johnson skirts and Prada shoes
I think I want those back, yeah
In fact why don't you just give me back everything I
ever gave you, everything
Including my heart, which you took out of my chest; still
beating
And threw it on the ground and did some kind of
satanic river dance on it
And doused it with gasoline, lit it on fire
And put the fire out with some kind of meat-tenderizer
And as if that wasn't enough
You had to sit on it and let one

Iâ€™m not stalking you
Iâ€™m just calling a lot
Iâ€™m not trying to freak you out
Iâ€™m not
Oh I saw that Kevin guy
I thought you should know
He seems okay
Itâ€™s time for him to go
Thatâ€™s right, I think he should get out of the picture
right quick
In fact, you know what?
I think he should probably suck my dick

You heard me, I think he should probably suck my dick

Iâ€™m fine alone, donâ€™t worry about me
I said Iâ€™m fine!
See, you donâ€™t understand that I know that youâ€™re
still mine
Weâ€™ve got the perfect relationship
In my head
Just like that one movie
Ted, Bob, Carol, and Alice
Did I say Ted?
That movie that you wanted me to watch, remember?
Maybe, maybe, we should watch it now
Because I got at home and itâ€™s on permanent loop in
my apartment
You can come over we can shnuggle up and watch your
fucking movie
How about that?
I donâ€™t wanna watch your fucking movie
Itâ€™s okay, no

Iâ€™m not stalking you
Iâ€™m just calling a lot
Iâ€™m not gonna fucking rape you or anything
Seriously, Iâ€™m not
Oh, whereâ€™s that Kevin guy
Have they found him yet?
You know, theyâ€™re totally looking in the wrong place
I bet
Finally got him to suck my dick
In fact why donâ€™t both of you suck my dick?
