Tell me what I am seeing
The rivers high
The water is never clear in this place I find
Maybe your reflecting
This need inside
The fire is getting near

In this brightness we are slowly touching ground
In this moment we can find away
In this lightning there's a treasure to be found
In this moment

Maybe I am receiving
Another kind
Cause these shadows never stay in this joint I find
Telling me your releasing
A clouded mind
Now the fires getting near

In this brightness we are slowly touching ground
In this moment we can find away
In this lightning there's a treasure to be found
In this moment

Slowly touchingX3 ground

Tell me your releasing
Tell me you can see
Tell me you are here with me

In this brightness we are slowly touching ground
In this moment we can find away
In this lightning there's a treasure to be found
In this moment
