There's a dead man's hand  
Floating in the sky  
Big nose people passing by  
Crusing around on a mountain of air  
Crusing around cause  
They can dance away

[CHORUS]

Won't someone take away these blues  
It's a shame but when I lose, I lose  
I can't survive too much spider jive  
I'm just about hanging on  
Oh, Lord, don't make a poor boy run  
It ain't easy living under a gun  
Insanity's keeping me company  
Insanity's on the loose  
Yes, insanity's on the loose

There's an angel of madness  
And she's bringing me down  
She won't rest until  
I'm in the ground

I'll keep searching everywhere I go  
Find the answers that no one knows

[Repeat CHORUS]

You can't paint pictures  
On a scarecrow's hat  
Cause everybody's hoping  
And that's a fact  
Rich man, poor man going insane  
Try all you want  
But you can't mistake

[Repeat CHORUS]
