Your whisper wakens me
I hear You
You enlighten me
I see You
I'm breathing out
Life's changing now

I'm alive
I feel on top of the world
I'm alive
Everything is real to me now

Incredible to be
So near You
A rush of energy
I feel You
I'm breathing out
Life's changing now

My eyes open
I am mystified
Everything is beautiful
Behind the Song:

'Alive has a sample of my son's heartbeat in his mother's womb. This inspired me to think about life...his life growing...and it being shaped and formed right from the very beginning. My relationship with my son teaches me a lot about the relationship I have with Jesus. How exciting it is--how exciting our lives with Jesus! All these thoughts make me feel on top of the world.' - Andy Hunter
