You, you saw right through
That's, that's when I knew
That I, I wanted you
But you, you called it too soon
You, you saw right through
You, you saw right through

I was happy to know you, baby
Now you ask me what you ask me, baby
Who can explain?
I was happy to know you, baby
Follow closely, try to find me
Find me, baby

I gave you my chances, chances
You gave me your answers, answers
I gave you my chances, chances
You gave me answers, answers
Why?

Changing letters, changing patterns
I can change 'til you don't matter
Changing borders, changing patterns
I can change 'til you don't matter

I was happy to know you, baby
Now you ask me what you ask me
Who can explain?
I was happy to know you, baby
Follow closely, try to find me
Find me, baby

I gave you my chances, chances
You gave me your answers, answers
I gave you my chances, chances
You gave me your answers, answers
Why?
