Circus Maximus must go down first  
While I feel a bliss as flames scorch the earth  
From my own hands I cast the blaze  
And make the Christians take the blame

Atop my throne I bid you all farewell  
Now prepare yourselves for ten days of hell

Watch me feed the fire, for my desire  
Watch me feed the fire, Blazing higher

I justify the lives, my legacy will survive  
Advocate the lies, and watch religion die

They say, With joy I, They say, I played as it burned  
With flame, With flame I, With flame, I burned it to the  
ground  
For greed, For greed I, For greed, I blame the ones of  
faith  
They say, With joy I, They say, I played as it burned

My own palace must go down next  
So that a golden one can resurrect  
A city of magnificence  
Will be built the blood the cost

I control the death like a god  
No, no mercy Felt, the ungod  
Feel the power held, A demigod  
Look up to me, the Pa god

Help me feed the fire, For my desire  
Help me feed the fire, Blazing higher

The destruction is now complete  
Looking down at the Misery  
Would I do it all again?  
Just pass my Bow and listen in
