In my head this broken line
Makes me feel like Frankenstein
Mother, Father what is wrong?
Tell me where do I belong

Nowhere we are leaving
Nowhere
Nowhere we are leaving you

TV shake me to the bone
King is falling off his throne
People killing people dead
Make this fire inside my head

Nowhere we are leaving
Nowhere
Nowhere we are leaving you

Another time another place
A changing world before my place

There's something there
We don't know where
There's something there
We don't know where

Something moving in the air
Taking everyone nowhere

Nowhere we are leaving
Nowhere
Nowhere we are leaving you
