Christmas present, Christmas tree
Children's eyes are wide to see
Santa's presents 'neath the tree
All day asked for on his knee

Christmas present, Christmas past
From the presents which one's last
Christmas future sure to be
Looking underneath the tree

For the present, look high, not low
Christmas was a gift itself many years ago
Christmas presents at the start
Was a gift from someone's heart

Christ is Christmas, that day is His
That's what Christmas presents is
