Soul-less is where I walk  
I did my best to send you off  
And the rest is the afterlife  
Please rest in peace and light  
Oh and I...want you back  
And I...want you back  
All these years...I wish them back  
All these tears...I hold them back

Silence, it's all I know  
It's my defense from this empty hole  
And it's no less, that I'm aware  
My fortress against the cold despair

CHORUS

CHORUS

So this is where I walk  
I did my best to send you off  
And the rest is the afterlife  
Please rest in peace and light
