The legend at hand is one of old and spoken by men of  
one hundred fold

The end reveals riches and gold, cast in darkness,  
underneath the earth it lies

Hear the victims ghastly cries as they slowly lose their  
lives, minds bewildered

Not a shed of hope in sight, no brightness to be guided  
by

Except the flicker of a light, by the flame, one with a  
heart so bold,

Strength and might which cannot be told enters the  
maze of caverns below, penitent

Enter he does against all consciousness, shadows eyes  
watching from corners, cracks and crevices

Mysterious is the puzzle as he encounters the toils,  
greed guides him on

Going untouched through tricks and traps, pursuing  
wealth

Magical are the walls that stand so high, mythical are  
the tales that one survived

Enter and those to shall find, their lives will soon be left  
behind Come forth step into the light

Labyrinth twists and turns of fright, recognize you must  
lose to win

Prepare to once again begin

Getting on to the final stage of this journey, in silence  
scheming with the assets he yet has

Blinding out of nowhere shines a gleam so bright  
glorious site his time arrives

Magical are the walls that stand so high, mythical are  
the tales that one survived

Enter and those to shall find, their lives will soon be left  
behind Come forth step into the light

Labyrinth twists and turns of fright, recognize you must  
lose to win

Prepare to once again begin

At one with the means he so greatly pursued.

Noticing not the wall that shuts behind him now Sadly  
he must die with what he so aspired to.
