

Anek "Bella"

Visit "[Bella](#)" on [MotoLyrics.com](#)

It was late that night that I was running out
From my destiny
I was lost in darkness of an autumn day
And thought to eternity
And I was looking for, I was looking for
The right way to escape
From this prison inside me, that I leave behind me
As the memory of that crate

It's blind
It's blind
It's blind
My love for you

While the time, was flying away
From this fatality
One voice said to me, carry on go away!
From hell to reality
And the leaves and the stars
Are shining in the night
They guide me to the light
My heart and my mood at last found a peace
I need inside myself

It's blind
It's blind
It's blind
My love for you

I've finally opened my mind
This love will triumph over evil

It's blind
It's blind
It's blind
My love for you
