We liked to walk
We said that we would spent
Every moment togheter
We liked to dream
About every thing, every thought,
Every night, for ever

[Chorus]
Why you don't understand
Why I don't believe again
'Cause we will never change
Why you don't want to feel
Why I don't want to dream again
'Cause we will never change

I don't resist
You're light years away
We could be what we said
But now we exist
And we'll continue to pray
After what we have faced

[Repeat chorus]

We'll never change...

Today we will build a new day
Where every fear
Will disappear
When we'll fight for
Our new horizons
We start our time
To change everything...

[Repeat chorus]
