"Everyday I see your face from a picture on the wall.  
I just sit by the phone and hope that someday maybe  
you'll call.  
I remember the days, we slept so close it always felt so  
right.  
Night after night how we held each other tight.  
But morning comes and I'm all alone.  
Cuz you're gone and you won't be back again.  
Chorus:  
Don't take your love  
Don't take your love away from me  
Don't take your love  
Don't take don't take it away  
Don't take your love  
Nooo nooo  
I couldn't keep up the pace  
Seems I lost the race  
And it's really got me down  
Cuz you're trying to run to every fancy place in town  
Pretty soon you're going to realize  
When you do you're going to want me back again  
Chorus:  
Don't take your love  
Don't take your love away from me  
Don't take your love  
Don't take don't take it away"
