When I go in, when I go hard, there nobody else on my
level, when I go
Near, when I go far, it's over, never made what's easy
perfect, fall for my
Gift I'm a read each card, the list is in my jeans, like my
bv jargon,
Faith I give it like CPR, always remember those days
when I couldn't go
Play, I was singing all day, no pain, they say there's no
gain, wasn't
Giving an old plain, doesn't work hard, I was...
frustrated, I made
Mistakes and they hated, so I I prayed then, I know it's
gonna come my way,
I'll be singing to the world some day.

Ain't give up the fight, I know wrong from right, gonna
keep it tight, with
The darkness I can find, light be shining bright, cos I
know when I go...
When I go in, when I go hard, there nobody else on my
level, when I go
Near, when I go far, it's over.
