Woke up this mornin'
My life so bornin'
Ain't no denying
Just got to move and find my own groove

Im so so sick of this
It was just only one kiss
How can they do this
There's somethin' going down that I just can't miss

(Chorus)
Step in the door went to the dance floor
Put your hands in the air and party with me
Dance all night, didn't leave til' 4
Holla if you know what I mean
Ladies get your hands up (raise em up)
Fellows know what's up (what what)
Dj's going diggen' what what
Crowd can't get enough, tonight come party with me

No dough there flossin'
No dough there tosin'
Moving it from left to right
Gonna have myself a good time tonight

Breakin' your neck to this
Clapping your hands to this
Shaking your butts to this
This beat got you movin' like this

At the party feelin so amazing
So hott 16 ya'll hatin
Hair did toes painted clothes blazing
Snuck out the house back promise me havein

(Repeat Chorus X1)

Fellas always give me that la la la
Ladies always give me that la la la
If you can't take it give me that bye bye bye
I know this is hot to na na na

Fellas always give me that la la la
Ladies always give me that la la la
If you can't take it give me that bye bye bye
I know this is hot to na na na

(Repeat Chorus X2)

What what what
Ohhhhh yaaa
What what
Tonight ya'll party with me
Step in the door went to the dance floor
Put your hands in the air and party with me

Tonight ya'll party with me

Fellas always give me that la la la
Ladies always give me that la la la
If you can't take it give me that bye bye bye
I know this is hot to na na na
Fellas always give me that la la la
