Talking fast later, with the mood and the flavor, to keep
you by my side.

I'm gonna shake you down, I'm gonna spin you around.
I got a fever in my brain, in my heart a burnin' flame of
desire.

Gonna make it clear, there's something you should
hear.

Chorus:

Got love if you want it, and the time is right.

Got love if you want it, you know I feel all right.

I'm gonna love you, yeah I'm gonna love you tonite.

Look at their faces, leave them hope & despair, and set
their souls on fire.

You show 'em paradise, and make them pay the price.

But if I catch them messin', gonna teach them a lesson,
And they better be ready to fight.

My two-fisted guns, will keep 'em in my sights.

Chorus:

Got love if you want it, and the time is right.

Got love if you want it, you know I feel all right.

I'm gonna love you, yeah I'm gonna love you tonite.

(repeat)

Solo

(repeat Chorus twice)

Got love if you want it, and the time is right.

Got love if you want it, you know I feel all right.

I'm gonna love you, yeah I'm gonna love you tonite.

I'm gonna love you, yeah I'm gonna love you tonite.

I'm gonna love you, yeah I'm gonna love you tonite.
