Fuck your racist stereotypes, fuck the Aryan nation
Fuck your anti-Semitism, fuck the Aryan nation
Fuck your homophobia, fuck the Aryan nation
Fuck your xenophobia, fuck the Aryan nation
Lacking understanding and longing for consistency
Small-minded bigots cowering in the face of diversity
Scapegoating the minorities for all of society's flaws
Projecting false statistics to legitimize their cause
The amassing of recruits has been rendered by deceit
Spewing racist stereotypes to influence beliefs
Brainwashed by the rhetoric that reaffirms their fears
Oblivious to the reality that prejudice never hears
They embrace their mental programming and
misinterpret it as pride
Their heads have become the dumping grounds where
stupidity now resides
Afraid of what they can't relate to in the world they're
living in
It's pathetic that their loudest proudest characteristic is
the color of their skin
Ignorance breeding ignorance until all rational thought
is gone
Believing in their superiority while functioning as pawns
To manipulative politicians who plant submissive seeds
They're unwittingly enlisted into carrying out the deeds
Of a right wing agenda best served by impressionable
minds
Exploitation's been perfected, conditioning's been
refined
By manufactured insecurities that prey upon the weak
They've abandoned their sense of reason for the
naivety they speak
They embrace their mental programming and
misinterpret it as pride
Their heads have become the dumping grounds where
stupidity now resides
Afraid of what they can't relate to in the world they're
living in
It's pathetic that their loudest proudest characteristic is
the color of their skin
Fuck your racist stereotypes, fuck the Aryan nation

Fuck your anti-Semitism, fuck the Aryan nation
Fuck your homophobia, fuck the Aryan nation
Fuck your xenophobia, fuck the Aryan nation
I'm tired of the intimidation and manipulation that they
use
I'm tired of hearing about another racially motivated
attack
That's why it's so important that we never turn our
backs
Our inaction and indifference provide the strength they
get
When we keep our silence we invite this racist threat
Let's make these bigots as nonexistent as their minds
They don't deserve any sympathy that they can hide
behind
They embrace their mental programming and
misinterpret it as pride
Their heads have become the dumping grounds where
stupidity now resides
Afraid of what they can't relate to in the world they're
living in
It's pathetic that their loudest proudest characteristic is
the color of their skin
