ATF, ATF, we don't need the ATF
There's an organization with dangerous views so the
fighting soon erupts
We could've asked what they believed if they hadn't
been blown up
But were their views dangerous to the people or the
state
Did they know the truth about the government based on
hate
ATF, ATF, we don't need the ATF
Their twisted reign of terror is the cause of many
deaths
It's their twisted reign of terror that you willingly accept
Appointments made by Janet Reno help the blood-
soaked ATF
Like Mark Richard who's made his life's career by
covering up what's left
They claim it's national security so the public never
see
That this secret service bullshit's at the expense of you
and me
ATF, ATF, we don't need the ATF
Their twisted reign of terror is the cause of many
deaths
It's their twisted reign of terror that you willingly accept
If you cross our government then you may just
disappear
And become another statistic for the rest of us to hear
If you keep on looking closer you may just find your
death
Compliments of our government and bastard
ATF, ATF, we don't need the ATF
BATF (Bureau OF Assasins, Torturers, and Facsists)
