"Denied"

In a cry for freedom communist Europe's walls crumble
They are reconstructed in our backyards
We are denied
They deny it
In a cry for safety a girl runs to a cop
In a cry for safety she is ignored
We are denied
They deny it
These problems will persist if we keep this fucking
system
They tell us to vote
But who for?
They're been promising changes for years
Does it ever happen?
Rarely
And when it does who benefits?
Not us
In a cry from hunger, a starving baby dies
In a cardboard shelter a starving baby dies
We are denied
They deny it
