"Media Blackout"

Visit "[Media Blackout](#)" on MotoLyrics.com

Objective reporting no longer exists
The reporter's accountability has always been
dismissed
The government keeps control with their hypnotized
support and the media lends a hand when they
consistently distort
Report to distort
Inform to reform
Suppress to repress
Media blackout
They compromise their principles and their integrity is
lacking
How can they be unbiased with big business financial
backing?
Money and deception is what the media's all about
Because if they can't suppress the media they just
fucking buy them out
Report to distort
Inform to reform
Suppress to repress
Media blackout
We have to seek out the alternatives to the paper and
the news
Their stranglehold won't weaken while we're force-fed
all of their views
You have to think for yourself, always consider the
source
Oppression of the people isn't always done with force
Report to distort
Inform to reform
Suppress to repress
Media blackout
