I've got something to tell you  
And this is how it goes

Look at me  
It makes me feel complete, yeah  
Hug me  
It makes me feel free  
Look at me when I'm talking to you  
Your eyes tell me that you love me too  
So just tell me

If you love me, tell me  
If you need me, show me  
If you see anything at all in me  
Give it to me  
Do you see me looking into your eyes  
But when I do, I can't seem to trust you anymore  
Though it breaks my heart  
I don't wanna tear you apart  
So just tell me

Chorus

You used to tell me five times a day  
You used to love me  
How much do you love me

Chorus

So just tell me
