I wanna find a DJ
The one that makes me dance
I just wanna have fun
I never stick to my plans
Ooh, I just wanna dance

Just wanna dance the night away
Just wanna dance
Give me that beat that makes me move
Give me that party that makes me groove

Can't wait until tonight
Have to keep on going cos I can't stop

My body's feeling alright
Just keep on dancing till you get to the top
Ooh, I just wanna dance

Chorus

I can feel the music flowing through me
I can feel the beat move my body
Dance, dance, dance the night through
Dance, dance, dance the night through

Chorus
