Just got off the phone to you
And you said you can't handle the pressure
I wish there was some way to stop you
From leaving me
I treated you so damn fine
But you think my love is just my mind
Telling me I love you
But you don't understand
That one, I'm in love with you baby
And two, without you my life is crazy

I don't wanna break up with you baby
My love is real
I don't wanna sit here crying in fear
That I'm no longer yours
Can't you just understand how I feel
Cos this feeling I feel is real
But baby please, let's not breakup
I'm actually hurting inside
I can feel my whole world collapsing
But you don't listen to me when I say
I'm givin' everything up but you (Oh baby)
I call and call but you don't pick up the phone
How am I meant to tell you
That one, I'm in love with you baby
And two, without you my life is crazy

Chorus

There's no way I can get over you
These feelings I have feel so true
I don't think that I could try move on
Cos I have loved you for so long

Chorus
