

Angel Grant "I Love You"

Visit "[I Love You](#)" on MotoLyrics.com

There was a time
When I knew nothing about love
A silly little girl
Masking her feelings from the world
You bring me so much joy
And I thank God from up above
Right now I know that what I'm feeling is true love
I love you
I love you

I never thought that I could feel this way
I never thought that we would go all the way
I never thought that I could form my lips to say
I love you
I love you
I love you

Since you've gone away the days are long
And my love grows stranger
I can't hide these tears
And yet my heart it grows fonder
The love I feel for you is like a child on Christmas day

You taught me how to love and just how to
communicate
That's why I sing this song to you and to only you
I love you
I love you

I never thought that I could feel this way
I never thought that we would go all the way
I never thought that I could form my lips to say
I love you
I love you
I love you

Love that brings me joy
It feels so natural
Innocent and pure so unconditional
So emotional

I never thought that I could feel this way

I never thought that we would go all the way
I never thought that I could form my lips to say
I love you
I love you
I love you
