ATF, ATF, we don't need the ATF  
There's an organization with dangerous views so the  
fighting soon erupts  
We could've asked what they believed if they hadn't  
been blown up  
But were their views dangerous to the people or the  
state  
Did they know the truth about the government based on  
hate  
ATF, ATF, we don't need the ATF  
Their twisted reign of terror is the cause of many  
deaths  
It's their twisted reign of terror that you willingly accept  
Appointments made by Janet Reno help the blood-  
soaked ATF  
Like Mark Richard who's made his life's career by  
covering up what's left  
They claim it's national security so the public never  
see  
That this secret service bullshit's at the expense of you  
and me  
ATF, ATF, we don't need the ATF  
Their twisted reign of terror is the cause of many  
deaths  
It's their twisted reign of terror that you willingly accept  
If you cross our government then you may just  
disappear  
And become another statistic for the rest of us to hear  
If you keep on looking closer you may just find your  
death  
Compliments of our government and bastard  
ATF, ATF, we don't need the ATF  
BATF (Bureau OF Assasins, Torturers, and Facsists)
