"No Change, No Future, We're Lost"

Visit "[No Change, No Future, We're Lost](#)" on MotoLyrics.com

American Corporate System
Controls the world's economy
Decides who's rich or poor
Suffer the third world country

No change, no future, we're lost

Mowed down by machine gun fire
Increase the external revenue
Exploit and capitalize a foreign country
This is kept hidden from the public's view

Question and doubt are discouraged
They want us to believe
That their actions do no wrong
We must no let them succeed

They ignore peaceful protest
They ignore protest
But can they ignore a city on fire
It's time to do more than talk

When they ignore peaceful protest
They ignore protest
But can they ignore a burning police car
It's time to do more than talk

When they ignore peaceful protest
They ignore signs and marches
But can they ignore bricks and rocks
It's time to do more than talk
