Freedom for all political prisoners in the United States  
Be aware of cointelpro and the falsehoods it creates  
We must stop the racist atrocities committed by police  
Demand that every last freedom fighter be released  
These people lost their freedom because of their  
knowledge of the facts  
And their commitment to expose it warrants FBI attacks  
If they survive they're harled away, the system now  
aborts  
Their rights and any justice in political uppert courts  
Another imprisoned year goes by  
Another parole will be denied  
Another prisioned is victimized  
The government and the FBI  
Make sure parole will be denied  
Our judical system's a fucking lie  
They'll keep them there until they die  
They're wictims of the corrupt legal system we ignore  
Like Leonard Peltier, Geronimo Pratt, The Move9, and  
Ricahard Moore (Dhoruebim Wahad)  
only crime committed is their mere existence  
Or their noble sacrifice of uncompromising resistance  
Persistence of resistance stems from independent  
thought  
So these "dangerous" revolutionaries are left in jail to  
rot  
This country reeks of prejucice from sea to shining sea  
They fucking lock the people up and throw away the  
key  
Another imprisoned year goes by  
Another parole will be denied  
Another prisioned is victimized  
The government and the FBI  
Make sure parole will be denied  
Our judical system's a fucking lie  
They'll keep them there until they die  
Our freedom of speech in this country is limited  
To having the sage obedient views the government  
want us to have  
Those with dissenting views are harassed, beaten  
imprisoned or killed  
Your freedom of assembly is also a lie

If you protest against the government the chances are  
You've already been filmed by police and are now on  
file  
There's hundreds of political prisoners being held all  
over the United States  
They have to endure some of the harshest conditions  
of the American prison system  
As long as our government continues to subject us to  
their cowardly oppression  
We're no longer obligated to them as peaceful citizens  
The time's extrememly overdue to take back what's  
rightfully ours  
We're no longer here for their selfish exploitaion  
It's our lives, our minds, our beliefs  
Fuck their threats and intimidation  
They have nothing left to hold over our heads  
Freedom and equality some people will never know  
Like Mumia Abu-Jamal who is waiting on death row  
His rights were stripped away by cops under Rizzo's  
reign  
Then he was dragged into court where Judge Ssbo did  
the same  
He exposed their fascist tactics and their feeble racist  
fears  
So he was framed and put in prison where he's now  
spent fourteen years  
He fights for the rights of people who fall victim  
to government violence  
They want him dead because the voice of the voiceless  
won't be silent  
Another imprisoned year goes by  
Another parole will be denied  
Another prisioned is victimized  
The government and the FBI  
Make sure parole will be denied  
Our judical system's a fucking lie  
They'll keep them there until they die
