"When You Support Those Fucking Bastards"

Visit "[When You Support Those Fucking Bastards](#)" on MotoLyrics.com

Don't listen to their politics or employ their bullshit laws
You never ask why
Don't get caught up in the civil war which your rulers
hope to cause
Don't listen to these bastards, don't listen to their lies
Take your fucking race war and shove it up your ass
It's fucking propaganda dispensed by the ruling class
Don't listen to these bastards, don't listen to their lies
In spite of everything you know, You're still playing
their game
When you support these fucking bastards the results
remain the same
The starving are still hungry
The suffering in pain
The poor still have no money
While the rich drink their champagne
