Living in fear as American culture imitates what it sees
Shooting sprees are on the rise, proof courtesy of the
television screens

Will you lock yourself in your home and just hide,

Or go out and play God with a gun at your side?

Becoming a target or arming yourself

You're a victim of fear either way

Living in paranoia on the defense

Or taking the chance of being gunned down one day

So who's pulling the trigger, who's calling the shots?

Who is it that's controlling our fate?

We're all responsible for the environment we've
created

Where none of us will ever be safe

Here comes the headlines and here comes the tears

The media feeding us our greatest fears

We see the horrifying images again and again

Children are being murdered by children

We just accept this as tragedies of life

What does this say about us?

When will we seek out some genuine solutions?

And show that we've all had enough?

Becoming a target or arming yourself

You're a victim of fear either way

Living in paranoia on the defense

Or taking the chance of being gunned down one day

So who's pulling the trigger, who's calling the shots?

Who is it that's controlling our fate?

We're all responsible for the environment we've
created

Where none of us will ever be safe

As political experts discuss and debate

Who it is that's responsible for all of this hate

They're building their political platforms on a pile of
corpses

Pointing their fingers and quoting us sources

Scapegoating is too easy for society's decay

Entertainment, music, drugs or the N.R.A.

What will it accomplish to pass stricter laws

When it's actually our apathy that's a much greater
cause?

As long as we leave our apathy alive

We're killing our children's chances to survive
Our idealistic intentions are wrapped in a shroud
The responsibility rests with what we've allowed
A society that taught us to kill or be killed
Convinced that this is the only way to be fulfilled
I just hope that we realize before it's too late
That we ultimately control our community's fate
Becoming a target or arming yourself
You're a victim of fear either way
Living in paranoia on the defense
Or taking the chance of being gunned down one day
So who's pulling the trigger, who's calling the shots?
Who is it that's controlling our fate?
We're all responsible for the environment we've
created
Where none of us will ever be safe
