"World Bank"

Visit "[World Bank](#)" on MotoLyrics.com

Third world is plagued by poverty and the world bank is
the cause
An instrument of transnational companies to overrule
domestic laws
Serving merely as a weapon for american foreign
policy leverage
Starvation is considered an effective repayment
incentive
The initiating step in US planned destabilizaion Is
extorting money by economic manipulation
With world bank interference development is
prevented
Their actions differ greatly from the compassionate
image that's presented
Restructuring the world economy is the world bank
and the IMF
Benefitting the richest countries while developing
nations are bled to death
The third world is descended so deeply into debt that
their economies can't function
The demand for outrageous interest force these
countries to increase production
Ecuador is forced to porduce more oil to repay all it's
debt
This strain upon the ecosystem's an environmental
threat
Rainforests have been ravished for iron smelting i
Brazil
Ten million people have been forced from the land the
world bank steal
Structural adjustment programs have pushed Peru to
poverty
While many African nations suffer from extreme
austerity
Restructuring the world economy is the world bank and
the IMF
Benefitting the richest countries while developing
nations are bled to death
Establishing puppet dictators whose actions are
devestating
The world's economists line their pockets with the

regimes that they're creating
They're the power watchdog security guarding where
first world interests lie
They slash and burn the rainforests or build another
dam
They systematically drive the indigenous people off of
their land
They've paved the way for industry to legally cease
resources
By imposing the political policies their leashed tyrant
enforces
Restructuring the world economy is the world bank and
the IMF
Benefitting the richest countries while developing
nations are bled to death
