Death to my vision  
Blind I shall serve  
Give rise to god war  
Watch the civils fall

Hateful seed inside me  
Scald my mind of all but truth  
I concede; I am the chosen one  
Open wide the gate  
Stain the world with the blood of man

Affliction  
Forced unto all  
Human Vexation  
Transcend with blood on my hands

Spirits of the grave remember  
Rise up O powers from the land of Til  
Plague and madness spread thru this world  
Burn in me - I suffer your will
