Into your eyes I'm diving
Into your eyes I'm gliding

(Into your eyes I'm diving)

Whenever I feel
I remind myself that you're around
I never have to fear
'Cause I know that you will stay right here
You're always making me smile
Let's close our eyes and just dream for a while
Please take me into your arms
Together we'll fly to the stars

Chorus:
Into your eyes I'm diving
Over the skies we'll fly away
Into your eyes I'm gliding
You take my breath away

You give me so much love
And I wanna hold you tight
My angel from above
You're light into my darkest night
Thank you for being around
And holding me up when I fall to the ground
You are the light in my heart
I know we will never part

Into your eyes I'm diving
(Into your eyes I'm diving)
Into your eyes I'm gliding
(I'm gliding)

Chorus
