Angel of death

A faceless evil spirit that haunts

Searching for the soul that he must take

Steed of white he rides through the realms of unknow

He is just a messenger from hell

Scanning the oceans searching for victims to taunt

Looking for those who dare rise him from the grave

Angel of death

Angel of death

Angel of death

Angel of death

Riding along he cannot find those that he seeks

Yet he knows he is on the right trail

Breaking the circle, not knowing of the danger she's in

He takes her with him through stygian to hell

To hell

Scanning the oceans searching for victims to taunt

Looking for those who dare rise him from the grave

Angel of death

Angel of death

Angel of death

Angel of death

Suddenly I awake, looking 'round to see where I am

Realise it's been just a crazy dream

I open the door to find that he is waiting there

The angel of death has come to take my soul

My soul

Scanning the oceans searching for victims to taunt

Looking for those who dare rise him from the grave

Angel of death

Angel of death

Angel of death

Angel of death
