You were the one with all the big plans honey
Now you're well and truly on your way
And I was stuck. I just had to pretend
That I was happy for you every day

You say "this I who I am
And this is what I want"
If this is who you are
I just don't think I want you
I know it's very hard
But it's also very true
If this is who you are
I just don't think I love you

The sun, it goes down ending our day
This time it wont come up again
The sun, it goes down ending our day
This time it wont come up again

We were the ones who had no chance honey
It was always gonna end this way
We were doomed from the start now
I see you and I, we're both the same
And I say

Walking down the street
And we're trying to hold hands
And we're looking in the eyes
But we both know its goodbye
And now its time to go
There's a fork in the road
Your name's written on a sign
But it's pointing away from mine

The sun, it goes down ending our day
This time it wont come up again
The sun, it goes down ending our day
This time it wont come up again

La da da da
La da da da da

La da da da da da
La la la da
La da da da da
La da da da da da

The sun, it goes down ending our day
This time it wont come up again
The sun, it goes down ending our day
This time it wont come up again
(Again) Again
