You opened doors And reached for love
They close again Did you get enough?
How long did we take From heartbreak to hate
From heartbreak to hate?
You opened up expecting a fairy tale That's a bad idea
I stumbled in a mumbling wreck With nothing clear
Four sheets to the wind They were after my skin
They were sniping for me I was dead unlucky
How long did we take From heartbreak to hate
From heartbreak to hate?
Heartbreak to hate
Heartbreak to hate
How long before I make sense of this?
How long before I forget your kiss?
How long did we take from heartbreak to hate?
From heartbreak to hate

Operator, the lines are dead
Ringmaster, the lions are fed
Your Honor, you know I was framed
Surounded in this stupid game
But you wanted love You held on hard
Couldn't give it up
Now baby stands alone tonight
Baby grasps for the love he might
Rejected, dejected Let down on everything he
expected
How long did you take From heartbreak to hate
From heartbreak to hate?
Heartbreak to hate
Heartbreak to hate
How long from heartbreak to hate
Heartbreak to hate
Neither way
And either way
Either way
And neither way
Do we get away
