Suffocate me with kisses baby
Suffocate me with burning love
Suffocate me put your chains around me
Suffocate me, I'm a thirsty dog
Suffocate me with conversation
Suffocate me with unsaid words
Suffocate me with indecision
Suffocate me with who comes first

I love you, you're so religious
I get a thrill when the curtain calls
I feel like your roman candle
Do your stuff while the empire falls
Falls
Suffocate me
I love you
I love you
I love you
I love you
You know I do

Suffocate me
Suffocate me
Suffocate me
Suffocate me (kisses baby)
Suffocate me (burning love)
Suffocate me (kisses baby)
Suffocate me (burning love)
Suffocate me (kisses baby)
Suffocate me (burning love)
Suffocate me (kisses baby)
Suffocate me (burning love)
