Anyone who's shaken dust  
Knows that it should fall back  
Harmless  
It's over now  
Things have changed  
Everything is different And rearranged  
We never got the way that we should go  
Tears and heartache, nothing more  
I had to play grownup in our game  
That wasn't fair, that was the worst thing  
And if I didn't say this was the end  
You would still be here now  
We wanted to be out of our heads  
In all that we could do  
Daddy didn't but you a diamond ring  
And mummy's still waiting for better things  
Baby's on his own now he's qualified  
Remember I was there on his down days  
You'll do good and you know that too

If I can give them I will do  
Mummy's gonna buy you a brand new life  
Mummy's gonna buy you a brand new life  
And if I didn't say this was the end  
You would still be here now  
We wanted to be out of our heads  
In all that we could do  
Born leaders, no, no we are not  
Born leaders, no, no never growing up  
Born leaders, no  
My hands be still should my eyes be bright  
And if I didn't say this was the end  
You would still be here now  
We wanted to be out of our heads  
In all that we could do  
And if I didn't say this was the end  
You would still be here now  
We wanted to be out of our heads...
