

## Angeli "Rainbow"

Visit "[Rainbow](#)" on [MotoLyrics.com](https://MotoLyrics.com)

See them walking down the street in America  
Black and white and brown, they meet in America  
Some, they mix and some, they smile and mingle  
While others, they go about their business single  
Watch the children play together, oh they understand  
So many races, colours and faces make a fairyland  
Here's an African, Italian or Asian  
There's a German, Indian, Irish or Romanian  
So be a friend and hold my hand  
And maybe try to understand

Like colours in a ray of light  
Together we can shine as bright  
In stormy times and every situation  
Paint a rainbow in the sky for all the nations  
See them mix and match so free in America  
Then it's peace instead of anarchy in America  
To show that we can work together is our destiny  
That all races can combine and live in harmony
