Vs-1)

Drowning in the memories of your past mistakes
Your hoping that the pain will just go away
Trying hard to solve it all on your own
But you can't overcome this battle all alone

Chorus

But he will carry you
When you can't stand
All you gotta do
Is put it in his hands
His mercy will endure
But you can be sure
No matter what your going through
He will carry you
He will carry you.

Vs-2)

Right now you feel like there's just no way out
You're confused and your minds filled with so much
doubt
You failed so many times you have no strength to go
But in your moment of despair theres one thing you
should know.

Chorus

Bridge

He will carry you
La la la la la la
Through the wind and through rain
Through the sorrow and the pain
When you feel your strength is gone and you can't go
on.

Repeat Chorus
