Verse 1:

I remember the night i was saved
And how my whole life was changed
The preacher spoke of the cross
Forgiveness and grace
The choir sang "Power In The Blood"
As i walked down to the altar to pray
After all of these years and so many miles i can say

Chorus:

There's still power in the blood
And satan still has to flee
There's still hope in the cross
And that's what i still believe

Verse 2:

I knew i needed God's grace
I felt so lost and ashamed
My misery was so plain to see
by the tears on my face
But then God reached down His hand
He forgave me and broke every chain
Now i've been set free
so i'll lift my voice and proclaim

Sing Chorus

Bridge:

Power, Power, wonder-working power
In the blood of the lamb

Sing chours

Ending:

That's what I Still believe
