Burn into me a new way of living  
A way that I can perceive  
Sad to see so much rejection  
A race that will just not believe

I wanna carry all I am giving  
It's all that you want from me  
I've been tried to be overtaken  
I rejoice in your victory

I, I come alive when I feel the fire inside  
I, no I can't hide the light that belongs in my life  
'Cause you keep it burning

Strengthen me to stand through temptation  
And in the strenght of your name  
Empower me, show me the weapons  
The weapons I need  
Guard my mind, alert and aware  
The sight of the battle ground  
The captain approaches, His coming is near  
Let no offense be found

I wanna carry all I am giving  
It's all that you want from me  
I've been tried to be overtaken  
I rejoice in your victory

I, I come alive when I feel the fire inside  
I, no I can't hide the light that belongs in my life  
'Cause you keep it burning

I, I come alive when I feel the fire inside  
I, no I can't hide the light that belongs in my life  
'Cause you keep it burning  
I, I come alive when I feel the fire inside  
I, no I can't hide the light that belongs in my life  
'Cause you keep it burning
