

Angelika & Demons "Easy Death"

Visit "[Easy Death](#)" on MotoLyrics.com

I want to die easy
I want to die sleeping
Oh my Lord please give
A peaceful end to my life
Let my blood stop running
Let my heart stop beating
Let me see the angels
And celestial light

Take me to the blessed light
From the darkness of the night

No more tears
No more sorrows
They belong to the world
I'm leaving behind
Let me see your face
Fell down to your feet
Oh my Lord forgive me
Let me bring you all my love

Take me to the blessed light
From the darkness of the night
Come into the blessed light
From the darkness of the night
