It is a land where we live the sinful life  
Lost in the dark so far from a crystal sky  
We dream of another time  
But please dry your tears don't cry  
'Cause we'll never die never die  
Never die

Planet of rain where a day gives way to night  
Your chosen place and you feel it deep inside  
Let go off despair and pain  
Face calmly the sunshine and rain  
As we'll never die never die  
Never die

Free your broken heart  
From doubts regrets and fears  
Cast them to the wind  
Wipe away your tears  
In the stone you're not alone  
The never-ending home  
Keeps you warm from the cold

Please come to me  
I can set you free  
I can save you from the storm

Please come to me  
I can set you free  
I can save you from the storm

Wonderful house of iron, flame and ice  
Just look around when you think of paradise  
Don't be afraid of your dreams  
We hold sway over the sins  
And we'll never die never die  
Never die...

Free your broken heart  
From doubts regrets and fears  
Cast them to the wind  
Wipe away your tears  
In the stone you're not alone

The neverending home  
Keeps you warm from the cold

Please come to me  
I can set you free  
I can save you from the storm  
Please come to me  
I can set you free  
I can save you from the storm
