Verse 1: You are the one, the only one that I fell for.
You were sent from heaven above. And I'm your angel,
and you are my god.

Chorus: I love you with all of my heart, and we'll never
be apart. Because you are a friend that will be there for
me until the end.

Verse 2: we should thank Jesus because he is the one
who created us, who brought us here, who made us
human, who made us human, who made us collide
together, and now, today we stand being the two
people that has found each other for ourselves and fall
in love.

Chorus: I love you with all of my heart, and we'll never
be apart. Because you are a friend that will be there for
me until the end.

Verse 3: I love you, you love me, and this is how love
should always feel like, be like, smell like, & forever be
this way. If there's no one left to care, just call me and
I'll be there.

Chorus: I love you with all of my heart, and we'll never
be apart. Because you are a friend that will be there for
me until the end.

Ending: Wherever you will go, you think of me always,
because you care for me, and will love me and cherish
me all my life. I hope this love will last forever, for
better or for worse. Even though we are apart, you will
always be in my heart and that will never change.
I LOVE YOU...
