

Angels Comsat "At Sea"

It's such a shame...
Things to do...
All of the time...
All of the time...
And it would be nice to get away...
For a little while...
For a little while...

Here it comes the change
Like a wave not to sink but to save...
The waters close overhead
And it's so good to just - forget...

It's funny how the scenery,

Looks better now...
Looks better now.
It's such a crime that the ties...
Are changed for another kind...
For another kind...
Here comes like a wave,
Not to sink but to save...
The waters close overhead
And it's so good to just forget...
So good to just forget...
