

## **Angels With Attitude "Valley Of Flowers"**

Visit "[Valley Of Flowers](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Valley of flowers the song of your heart  
A voice from a distance that tore us apart  
That terrible accident that took you away  
I'll cry and i'll cry until it's my day

Valley of flowers the key to the lock  
I never saw the future when i looked at the clock  
We wiss you so much and that is true to say  
We were good but you were great in every possible way

The funeral was terrible i cried and i cried  
I couldnt around the fack that you had just died

Valley of flowers the key to the lock  
I never saw the future when i looked at the clock  
We wiss you so much and that is true to say  
We were good but you were great in every possible way

I'm finally over it but i still miss you  
At that special time of year i cry  
And that is true...
