"Housebreaker"

When I first met you
You were not house trained
A backwoods trier
The world's your oyster
Your time is mine
What's yours is mine all mine
There's no honour
Among thieves
So we worked together
A varied rich
And famous crime
You had your motives
I had mine
For a soul to find
Little piece rub off on mine
Trinkets, memorabilia
Diamonds for the taking
One man's treasure
Never meant a thing
When I was housebreaking
Took a buckshot landing
>From my most famous client
Must have lost it in the fall
Came away empty handed
When I first met you
I was not housetrained
