Ooh

I'm really, really lovin' the way that you are makin' me  
feel

(Makin' me feel)

I'm really, really lovin' the way that you are makin' me  
feel

(Makin' me feel)

If I could live my life inside a dream

We would be the perfect team

We would have a love supreme, oh

There will never be a cloudy day

Love will push the rain away

The blues will never understand

If love if just a touch of magic that we had, I want it all  
'Cause I deserve everything and more

And if I make a promise to be true to lovin', I cross my  
heart

And you could be sure as the angels above

I'm really, really lovin' the way that you are makin' me  
feel

(Makin' me feel)

I'm really, really lovin' the way that you are makin' me  
feel

(Makin' me feel)

If we were trapped inside an hourglass invisible to all  
the past

But love I know that we could last forever

And if we're driftin' through the galaxy our spirits  
running high and free

Just as long as we could be together

If love if just a touch of magic that we had, I want it all  
'Cause I deserve everything and more

And if I make a promise to be true to lovin' I cross my  
heart

And you could be sure as the angels above

Look at me, have let seen in love, lovin' you  
Kiss me, I can't realize can only think about you  
'Cause every day I pray for you and me  
With hopes that we last for all eternity

I'm really, really lovin' the way that you are makin' me  
feel  
(Makin' me feel)  
I'm really, really lovin' the way that you are makin' me  
feel  
(Makin' me feel)

Oh, when the morning comes start wakin' up  
Your precious love  
Oh, when the morning comes start wakin' up  
Your precious love

I'm really, really lovin' the way that you are makin' me  
feel  
(Makin' me feel)  
I'm really, really lovin' the way that you are makin' me  
feel  
(Makin' me feel)

I'm really, really lovin' the way that you are makin' me  
feel  
(Makin' me feel)
